Notice.

All persons indebted to this paper are kindly requested to pay up as the publisher is anticipating a business venture that will require all the money owing us and more too. We have several hundred dollars out on job work, advertising and subscription, which is small to the different persons who owe such indebtedness, but if all paid in would be much to us. Start the new year right by owing the printer nothing.

False Alarm.

Some excitement was produced Saturday night when the alarm of fire was sounded, and a blazing light was seen in the Methodist church. In making preparations for the evening service, fires were started in both stoves, and before the congregation began to assemble, Pastor Prentiss arrived and started to replenish the fire in one of the stoves when the pipe fell down and carried with it the top section of the stove. This made an open fire,

which from the outside looked like the house must be in a blaze. The stove was carried out and all dangers of a fire averted, but no services were held that night. In an effort to prevent the pipe from falling, Bro. Prentiss got his right hand badly burned.

Bank Officials Elected.

At a meeting of the stockholders of the Clay City National Bank, Tuesday, January 9, the following directors were elected: M. H. Courtney, J. F. Cox, Chas. Scott, John D. Atkinson, A. T. Whitt. In the afternoon on the same day, the directors held a meeting and elected M. H. Courtney, President; Chas. Scott, Vice President; A. T. Whitt, Cashier.

The officers are the same as last year except A. T. Whitt is made Cashier in the place of J. F. Cox who has become President of the Bowling Green National Bank. Mr. Whitt has been connected with the bank as Assistant Cash-

ier for quite a while, and is therefore fully acquainted with the Cashier's duties. He is a man of sterling qualities and fine business ability, and will keep the bank in the same splendid condition it now enjoys.

More Cement Clay in Powell.

If all reports are true, cement clay has been found in large quantities on the farm of Thomas Welch near Rosslyn 7 miles north-east from this place.

Parties have compared the clay found on Mr. Welch's farm with the Portland cement clay found on the farm of Mrs. R. A. Bohannon and pronounce it to be exactly the same.

That the cement clay is here in quantities to justify the expense of developing is demonstrated beyond a doubt. Great excitement prevails, and judging from the reports that is going through the State we cannot see anything but a brilliant future for "Old Powell County."

The Governor's Message.

The message of the Gov. submitted to the Legislature, is a straightforward document, says the Courier-Journal, in which he repeats several of his old suggestions and offers several new ones.

He advises careful investigation of all departments of the State Government.

He declares that the present rate of taxation is insufficient, and informs the Assembly that it must devise means to obviate a probable deficit in the revenues, particularly if it is its purpose to make additional appropriations during this session. The first work of the General Assembly, he suggests, should be given to the consideration of the questions of increasing the revenues or reducing the expenses. His own recommendations for appropriations, he explains, are made conditionally that the revenues permit them.

He desires that the law shall be so amended as to require that the county shall pay one-half the allowance for pauper idiots before the State shall be called on to pay the other half; or, if this be not done, that the Feeble-minded Institute be enlarged and the pauper idiots be sent there.

He renews his recommendation that the management of this institute and the three asylums for the insane be placed in the hands of a State board of control, to be appointed by the Governor and confirmed by the Senate.

He wishes that the prison commissioners, instead of being elected by the Legislature, shall be appointed.

The substance of his recommendation regarding education is contained in the sentence that "this General Assembly should consider, not the appropriation of more money, but such improvement in the school system as will bring forth more valuable results from the large amount already spent for such purposes."

He makes a deserved commendation of the work of the Geological Survey.

He proposes the establishment by the State of a home for the care and treatment of consumptives.

He advises the revision of the law governing the public printing.

He would have important legislation for the regulation of insurance.

He is desirous that steps be taken to curb the extravagance and recklessness of our system of criminal prosecutions.

Among other recommendations, one of the most important is that for a reform of our jurisprudence. He recognizes the fact

that the law affords too many loopholes for the escape of the guilty. "I suggest as one remedy," he says, "that you adopt the practice followed in the Federal courts, and provide that in the trial of any offence, the jury shall merely pass upon the guilt or innocence of the defendant, and if found guilty that the court shall fix the penalty, subject, of course, to the limitations prescribed by law. This would reduce at least half of the number of hung juries, for it is undoubtedly true that the majority of the juries which disagree do so upon the question of the amount of the penalty to be imposed, and not upon the question of guilt or innocence. The judge who hears the case impartially, who knows the law, and who should be freer from bias excitement than any one, is the proper person to determine the penalty. This is not an experiment, but works well in all the courts which have tried it. It would also be a great saving of expense to the Commonwealth in reducing considerably the number of hung juries."

BEAUTIFY YOUR HOME WITH KINLOCH PAINT
READY TO MIX NOT READY MIXED

Important Memorandum—The painter of the most important factor in painting. A job well done, done by a good painter with the best quality of paint, costs only \$10.00 (500 Kilobars, \$20.00 paint) and last five years. The same paint applied by a dealer (\$20.00 labor, \$20.00 paint) will last only two years. Thus the "pay-you-see" of the good painter's job is \$10.00—the poor painter's \$20.00.

A small investment in paint adds greatly to the value and beauty of your property and makes you a "good neighbor" by making a good neighborhood. Good painting is one of the best investments and pays big returns in improved values. It's a saving, not an expense. But when you paint—buy only

Kinloch HOUSE PAINT

There's one indisputable reason why, a reason every honest painter will acknowledge. "The Oil is the Life of Paint," and the sure way to get good oil is to buy it fresh and pure from the dealer's barrel, not from the ready-mixed paint can. The paint that is ready to mix with linseed oil, gallon for gallon, is KINLOCH PAINT, and we recommend its use for every good reason we know.

and family, G. W. Lyle Sr., Mr. and Mrs. R. C. Newkirk and Misses Mabel Newkirk, Clyde Wierman and Myrtie Faught visited Mr. and Mrs. Allen Shouse Sunday.

A company of twenty-five of their friends gathered at the home of Mr and Mrs. G. W. Lyle, Jr. Saturday night and spent a very pleasant evening. About 9 o'clock the company began to speak of some boxes they had brought along which were said to contain many good things to tempt the appetite and we folks having an abundant supply of the aforesaid were not at all slow in arranging on the table the contents which was a sight most pleasing to the eye. We had a splendid time and after supper spent some time in social enjoyment together. We took our departure at 12 o'clock wishing them many happy returns of the day.

As gay a crowd as one could find started for a coon hunt Tuesday night over as rough and crooked a road as they could find. After traveling for a good ways "Alice" and "Barner", two noted coon dogs, gave a few loud barks just above us on a cliff, then there was a calm—all made breathless haste to get there first, expecting nothing short of two coons and a "possum". We got to the dogs only to find them busy scratching and barking in a hole under a large rock. Burk at once cut a long stick and handed it to John, who at once began to twist whatever it might be out. Morgan said "if it is a coon I want it and if it is a wild cat John and Burk may have it". After a few minutes work John twisted "whatever it might be" out which proved only to be a small rabbit which he at once gave to "Alice" and "Barner". To tell the experience in full would be to lengthy, but to make the story short we enjoyed a splendid hunt. We arrived home about 10 o'clock and a more weary and wibegone crowd would be hard to find. The crowd was composed of Messrs John Newkirk, Burk/Billings, Morgan Wierman and Misses Nortie and Nannie Bet Billings, Mabel Newkirk and Mrs. Myrtie Faught.

A dashing sketch of that fascinat-

ing sport—ice-skating—is the subject chosen for the frontispiece in the February New Idea Woman's Magazine. Norah Anderson discusses in an entertaining article. "The Management to Private Theatricals." The first of a series of tales of mystery and adventure "From the Career of Clive Rayner" appears in this number. "The Walls of Jerico," "is a story by Mabel Craft Deering, of a girl who after many disappointments makes her way with her pen as a result of much hard work and perseverance. A pathetic glimpse into a child's heart balanced by touches of humor which has quaint surroundings afford are told of in the story. "A Beneficent Misfit" by Sarah Puth Quigley. Other articles in this number are "Two Women Inventors," by Julia D. Cowles. "The History of a Papilio Turnus Butterfly," by Ellen Robertson Miller, and "The New Hand Arts" by Mary H. Northend. Harriet Martin adds another practical talk to business women. In the distribution of suitable verse and stories the children have not been forgotten. Two good animal stories will appeal particularly to the young reader. The special article on dress deals with rain and dust coats, several drawings indicating the latest modifications in these garments.

If You ARE A Democrat Or if You are not You will want to read Bryan's Commoner.

ON MARCH 17 The Commoner announced the Primary Pledge organization plan. This plan provides for Democrats to sign a pledge, binding themselves to attend all primaries of their party between now and the national campaign of 1908. It is a practical method for the organization of the party by the rank and file, in order that it may prove true to its name and be the efficient servant of the people in the establishment of reform. A little investigation will convince you that the Commoner has hit upon a feasible and effective method of persuading Democrats to participate in the councils of their party.

These pledges are pouring into the Commoner office by the thousands, where they are carefully filed by state, county and voting precinct.

If the same interest manifested in this work during the past four months is maintained during the next two years, the total membership will exceed four million Democratic voters.

The Commoner is issued weekly, subscription \$1 a year. By special arrangements, for a short time only, we offer the Clay City Times and The Commoner on subscription both for \$1 10.
